

## **U2 - Elevation**

```
Tom: E
                                                               living in a hole
  Versão
U2 Live from Boston
                                                              Digging up my soul now
Usar power chord
                                                               Going down, excavation
Na primeira parte só tocar a primeira corda
Intro: [(E A )3x Gb C ] 2X
                                                                      Α
                                                               I and I in the sky
High, higher than the sun
                                                               You make me feel like I can fly
You shoot me from a gun
                                                               So high
              F
I need you to elevate me here
                                                               Elevation
                                                               [(E A )3X Gb C ] 2X
At corner of your lips
                                                                В
As the orbit of your hips
                                                               Love
Eclipse
                                                               Lift me up out of these blues
                                                              Won't you tell me something true
You elevate my soul
                                                                      Ε....
                                                               I believe in you
I've get of self-control
                                                               В
Been living like a mole now
                                                              A mole
                Е
Going down, excavation
                                                               living in a hole
    Α
high now in the sky
                                                              Digging up my soul now
You make me feel like I can fly
                                                               Going down, excavation
So high
                                                               Higher now
Elevation
                                                               In the sky
(E A )3X Gb C
                                                               You make me feel like I can fly
 R
A star
                                                               So high
Lit up like a cigar
                                                               Elevation
Strung out like a guitar
                                                               Solo
A E
Maybe you can educate my mind
                                                               Sequencia:
Explain all these controls
                                                               [(E A ) 3x Gb C ] 4x
Can't sing but I've got soul
  Α
                                                               Elevation...
                 Е
The goal is elevation
                                                               Elevation...
                                                               Elevation...
 В
                                                               Elevation...
A mole
                                                               Elevation...
                                                               Elevation...
```
