

## U2 - Sometimes You Can't Make it on Your Own

```
Intro: A G Gbm D A
                                                                 I need to let you know
                                                                 You don't have to go it alone
Tough, you think you've got the stuff
You're telling me and anyone
                                                                 And it's you when I look in the mirror
You're hard enough
                                                                 And it's you when I don't pick up the phone
                                                                 Sometimes you can't make it on your own
You don't have to put up a fight
                                                                 (Just inside)
You don't have to always be right
                                                                 F C Dm
I know that we don't talk
Let me take some of the punches
                                                                 I'm sick of it all
For you tonight
                                                                 F C Dm
                                                                 Can, you, hear, me, when, I, sing
Listen to me now
                                                                 You're the reason I sing
I need to let you know
                                                                 You're the reason why the opera is in me
You don't have to go it alone
                                                                 Well hey now
         Gbm
And it's you when I look in the mirror
                                                                 Still got to let you know
And it's you when I don't pick up the phone \begin{tabular}{ll} \end{tabular}
                                                                 A house still doesn't make a home
Sometimes you can't make it on your own
                                                                 Don't leave me here alone
We fight all the time
   Gbm
                                                                 And it's you when I look in the mirror
You and I... that's alright
                                                                 And it's you that makes it hard to let go
We're the same soul
                                                                 Sometimes you can't make it on your own
I don't need... I don't need to hear you say
                                                                 Sometimes you can't make it
                                                                            D
That if we weren't so alike
                                                                 Best you can do is to fake it
You'd like me a whole lot more
                                                                 Sometimes you can't make it on your own
                                                                 [Final] A
Listen to me now
```
