

U2 - Stuck in a Moment You Can't Get Out Of

```
To worry like you do
                                            D )
                                                                I know it's tough, and you can never get enough

Intro: D D G D A Bm G D
                                                              Of what you don't really need now... my oh my
                  G
I'm not afraid of anything in this world
                                                                You've got to get yourself together
                                                                                Bm
There's nothing you can throw at me that I haven't
                                                               You've got stuck in a moment and now you can't get out of it
 already heard
                                                               Oh love look at you now
                   D
                       G
I'm just trying to find a decent melody

              Bm
                                                               You've got yourself stuck in a moment and now you
A song that I can sing in my own company
                                                               can't get out of it
 I never thought you were a fool
 But darling, look at you
                                                               I was unconscious, half asleep
 You gotta stand up straight, carry your own weight
                                                               The water is warm till you discover how deep...
These tears are going nowhere, baby
                                                               I wasn't jumping... for me it was a fall
                                                               It's a long way down to nothing at all
You've got to get yourself together
                                                                       D G
You've got stuck in a moment and now you can't get out of it
                                                                You've got to get yourself together
       D G
Don't say that later will be better now you're

stuck in a moment and you can't get out of it
                                                                Don't say that later will be better now you're
                                                               stuck in a moment and you can't get out of it
I will not forsake, the colours that you bring
                           Rm
                                                              And if the night runs over
But the nights you filled with fireworks
                                                                  And if the day won't last
They left you with nothing
          D
                                                                  D G D
I am still enchanted by the light you brought to \ensuremath{\mathsf{me}}
                                                              And if our way should falter
                       Bm
I still listen through your ears, and through your eyes
                                                                  Along the stony pass (2x)
I can see
                                                              It's just a moment
And you are such a fool
                                                               This time will pass
