The night gave you song

A
A light had been turned on

Em
You walked out in the world
G

Like you belong there

Bm
As easy as a breeze

A
Each heart was yours to please
Em

Is it only me who sees
G
There's something wrong there

Bm **A**
Oh, I'm not a ghost there

Em
I can.... see you
G

You need to see me

D **A**
It's the little things that give you away

G
The words you cannot say
Em

Your big mouth in the way

D **A**
It's the little things that tease and betray

G
As the hunted I become the prey
It's the little things

Em **D**
The little things that give you away

Bm
I saw you on the stairs

A
You didn't notice I was there
Em

That's 'cause you were talking at me
G
Not to me

Bm
You were high above the storm

A
A hurricane being born
Em

What was freedom

G
It might cost you, your liberty

D **A**
It's the little things that give you away

G
The words you cannot say
Em

Your big mouth in the way

D **A**
It's the little things that tease and betray

It's the little things
