

U2 - Your Blue Room

Tom: **G**

Em **D**
It's time to go again
F **C**
To your blue room
Em **D**
Got some questions to ask of you
F **C**
In your blue room

The air is clean
Your skin is clear
I've had enough of
hanging round here
It's a different kind of conversation
In your blue room

Saw me coming
In and outside
Saw me coming
Somewhere to hide

And time is a string of pearls
Your blue room
Once again
See the future just hanging there
Your blue room
A new frame
A new perspective
Looking down on my objectives
Your instructions
Whatever their directions

Your blue room

Saw me coming
East by the moon
Saw me coming
Can you feel

(It's alright)

Your blue room

One day I'll be back
Your blue room
Yeah, I hope I remember where it's at
Your blue room

F **E** **C**
We see me slide down
G **D** **C** **G**
Won't you give me a home
D **Em** (e continua a sequência **Em D F C**)
So much for change

Zooming in
Zooming out
Nothing I can't do without
A lense to it all up close
To Magnify what no one knows

Never in company
Never alone
No car alarm
No cellular phone
