

Uncle Kracker - Smile

```
You make me smile like the sun
 (forma dos acordes no tom de {\color{red}\mathsf{G}} )
                                                                Fall out of bed, sing like a bird
Capostraste na 4º casa
Intro: C Dm F
                                                                Dizzy in my head, spin like a record
You're better than the best
                                                                Crazy on a Sunday night
I'm lucky just to linger in your light
                                                                You make me dance like a fool
Cooler than the flip side of my pillow, that's right
                                                                Forget how to breathe
Completely unaware
                                                                Shine like gold, buzz like a bee
                                                                Just the thought of you can drive me wild
Nothing can compare to where you send me,
                                                                Ohh, you make me smile
                       Dm
Lets me know that it's ok, yeah it's ok
And the moments where my good times start to fade
                                                                Don't know how I lived without you
                                                                Cuz everytime that I get around you
                C
You make me smile like the sun
                                                                I see the best of me inside your eyes
                                                                       G
Fall out of bed, sing like a bird
                                                                You make me smile
Dizzy in my head, spin like a record
                                                                You make me dance like a fool
Crazy on a Sunday night
                                                                Forget how to breathe
You make me dance like a fool
                                                                Shine like gold, buzz like a bee
Forget how to breathe
                                                                Just the thought of you can drive me wild
Shine like gold, buzz like a bee
                                                                [Refrão]
Just the thought of you can drive me wild
                                                                You make me smile like the sun
Ohh, you make me smile
                                                                Fall out of bed, sing like a bird
( C Dm F )
                                                                Dizzy in my head, spin like a record
Even when you're gone
                                                                Crazy on a Sunday night
                                                                You make me dance like a fool
Somehow you come along
Just like a flower poking through the sidewalk crack and just
                                                                Forget how to breathe
                                                                Shine like gold, buzz like a bee
You steal away the rain and just like that
                                                                Just the thought of you can drive me wild
[Refrão]
                                                                Ohh, you make me smile
