

# Underoath - When The Sun Sleeps

Tom: E

m [Intro] Em D Em D C

I thought you'd come back  
 At least i prayed (so i prayed)  
 The romance has been dead (the  
 Romance is dead the romance is dead)

For years (you come back)

But i've been too afraid

To dig the grave (so i prayed)  
 Relief support never came

Memories carry me through the day

Of when we were kids  
 And angels came to watch us play

[Refrão]

Close my eyes just for tonight

The sun still sleeps and when she wakes

Close my eyes just for tonight

The sun still sleeps and when she wakes

( Em D Em D C )

A movie that plays in my mind

Remembering you helps me survive

Every day a re-run of the next

I promised to stay by your side

That all would change

I can't complain

Another victim of the game

[Refrão]

Close my eyes just for tonight

The sun still sleeps and when she wakes

Close my eyes just for tonight

The sun still sleeps and when she wakes

[Ponte]

Maybe love will find us again

For there is always tomorrow

Sincerely till the end

Close my eyes just for tonight

The sun still sleeps

And when she wakes

Close my eyes just for tonight

The sun still sleeps

And when she wakes

[Refrão]

Close my eyes just for tonight

The sun still sleeps and when she wakes

Close my eyes just for tonight

The sun still sleeps and when she wakes

( Am C Em D )

[Final]

You'll be a memory (be a memory)

You'll be a memory (be a memory)

You'll be a memory (be a memory)

You'll be a memory

Memory memory memory

( Am C Em D )  
 ( Am C Em C )
