At the conception of the earth
The Genesis of everything
When light brought day
And night gave rest
At Your word creation formed
The praise of all the earth was born
You said it was good and called it blessed
Every nuance is a form of art
Pointing back to who You are
Distinguished, set apart
You made everything
And everything You made recognizes
Your worthiness
(2x)

And the seasons change on purpose
They groan in giving worship
All the earth belongs to You Lord
And the clouds they come together
Giving praise with light and thunder

And everything You made recognizes
Your worthiness
