

Uscb Allstars - 12 Steps

Tom: A

Stand clear here's a dead man coming through

I got one foot in the grave the other kicks the buckle for real
That's not all

Ever since the age of 10 I tried 20 different ways to kill myself

And I'm tired of being a failure I gotta succeed to bleed
So come on

Here goes nothing

And you can tell by the road
I'm dying to meet my maker

And I got 12 steps left

On the program
I really think that we should talk

Here goes nothing

So many people to thank
On the part of my bad behavior

And I got one shot left

In the chamber
For one of you to use on me

Watch out me and life just picked a fight

I was sipping on the belt so many times steady waking now
That's not all

It's funny how I promised myself that I never let my guard down, not ever again

But I can't keep a promise, not even when it's best for my health
So come on

Here goes nothing

And you can tell by the road
I'm dying to meet my maker

And I got 12 steps left

On the program
I really think that we should talk

Here goes nothing

So many people to thank
On the part of my bad behavior

And I got one shot left

In the chamber
For one of you to use on me

Meet me at the point of no return

I got full speed ahead for this one track minute ride
Fuck you all

Change your mind just before the leap

But I can't make a turn on a one way street

So it's all now or never

Tonight I'm coming home

Here goes nothing

And you can tell by the road
I'm dying to meet my maker

And I got 12 steps left

On the program
I really think that we should talk

Here goes nothing

So many people to thank
On the part of my bad behavior

And I got one shot left

In the chamber
For one of you to use on me

You want to be first to be thanked

Cause I got 12 steps left yeah

One shot left

Twelve steps left yeah

One shot left

Twelve steps left yeah

One shot left Yeah

Twelve steps left

Ones shot left

Here goes nothing

And you can tell by the road
I'm dying to meet my maker

And I got 12 steps left

On the program
I really think that we should talk

Here goes nothing

So many people to thank
On the part of my bad behavior

And I got one shot left

In the chamber

G#M

D

For one of you to use on me

Acordes
