

## Van Morrison - When Will I Ever Learn To Live In God

```
And ever more shall ever be
Intro: Em Em D G G D Em
                                                             When will I ever learn to live in God?
The sun was setting over Avalon
                                                                       C G
                                                             When will I ever learn?
       The last time we stood in the West
                                                                         С
                                                                                                          Em
                                                             He gives me everything I need and more
Suffering long time angels enraptured by Blake ${\rm Bm}$ C
                                                                      C G
                                                             When will I ever learn?
Burn out the dross, innocence captured again
                                                             What ever it takes to fulfill His mission
Standing on the beach at sunset

D
G
                                                             That is the way we must go
     All the boats keep moving slow
                                                             But you've got to do it in your way
           D
                    G
In the glory of the flashing light
                                          G\quad D\ Em\ D
                                                             Tear down the old, bring up the new
            D
      In the evening's glow
                                                             And up on the hillside it's quiet
                      G
When will I ever learn to live in God?
         C G
                                                                    Where the shepherd is tending his sheep
When will I ever learn?
G C G
                                                             And over the mountains and the valleys
                                             Fm
He gives me everything I need and more
                                                                                          D G
     C G
                                                                    And the countryside is so green % \left\{ 1,2,...,n\right\}
When will I ever learn?
                                                             Standing on the highest hill with a sense of wonder
You brought it to my attention
                                                                   You can see everything is made in God
     That everything was made in God
                       D
                                                             Head back down the roadside
Down through centuries of great writings and paintings
                D Ğ
                                                                  And give thanks for it all
       Everything was in God
                                                                                  G
                                                             When will I ever learn to live in God?
Seen through architecture of great cathedrals
                                                                      C G
                                                             When will I ever learn?

G

C

G
                            D
     Down through the history of time
                                                                                                          Em
                                                             He gives me everything I need and more
Is and was in the beginning
                                                                      C G
                                                             When will I ever learn?
```
