Eddie Vedder - Society
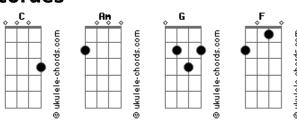

Tom: C

    Introdução: Am

```
Am
Oh? oh oh? oh oh oh? oh oh oh?

C         G        C
It's a mystery to me
                F                      G
We have a greed with which we have agreed
       F       G            Am
And you think you have to want more than you need
F            G          Am
Until you have it all you won't be free

      F                  C
Society, you're a crazy breed
              G         Am
Hope you're not lonely without me

C                            G
When you want more than you have
           C
You think you need
                              F
And when you think more than you want
         G
Your thoughts begin to bleed
F                G          Am
I think I need to find a bigger place
F                               G
Because when you have more than you think
         Am
You need more space

      F                  C
Society, you're a crazy breed
```

```
              G        Am
Hope you're not lonely without me
       F          C
Society, crazy indeed
              G         Am
Hope you're not lonely without me

C                      G                  C
There's those thinking, more or less, less is more
                       F            G
But if less is more, how you keeping score?
F                  G             Am
Means for every point you make, your level drops
F                 G         Am
Kinda like you're starting from the top
You can't do that...

      F                  C
Society, you're a crazy breed
              G         Am
Hope you're not lonely without me
       F          C
Society, crazy indeed
              G         Am
Hope you're not lonely without me

      F              C
Society, have mercy on me
                G          Am
Hope you're not angry if I disagree
       F            C
Society, have mercy on me
              G         Am
Hope you're not lonely without me
```
