

Villagers - Hot Scary Summer

Tom: C

Intro: C F

Oh lord

So you thank me for my hard work

But you've had it up to there

Cos this shouldn't be hard work

But i'll fight to care if you'd care to fight

Thank you for your hard work

But i've had it up to here

Cos this shouldn't be hard work

Least not the kind that makes us half a person, half a monster

Stuck together in this hot scary summer

Oh lord

Hot scary summer

ohhhhh

Remember kissing on the cobblestone, in the heat of the night

And all the pretty young homophobes looking out for a fight

We got good at pretending, then pretending got us good

We've always been up against it, but now it's sad to see
We're up against each other

In this hot scary summer

Oh lord

Hot scary summer

ohhhhh

I live inside you, and you live in me

I live inside you, and you live in me

Nothing's going to change that, dear

Nothing's going to change that, dear

Not even being apart

We'd travel right to the heart of this

Hot scary summer

Oh lord

Hot scary summer

ohhhhhh

(Am C Dm Am G)

So you thank me for my hard work

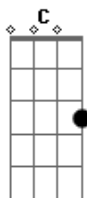

But we've had it up to here

Cos this shouldn't be hard work

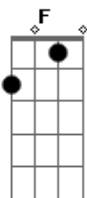

At least not the kind that makes us half a person, half a monster

Stuck together in this hot scary summer
