Sleep, there?s no more pain
F Am C
Always thinking about you
I didn't have the chance to say goodbye
Just saw you resting down there, your cold skin
I wish to go back in time
I miss your move
I miss your smile
For the first time you've made me cry
Always honoring your memories, through the time
F Am C
Yesterday you called and I answered
Checking how I was doing, I?m sorry bro
I never did the same
I felt you worried over the phone
```

I know there?s something wrong You were the happiest man that I used to know The way you moved The way you smiled All the time you made me laugh Always keeping happiness at your side, all the time Am C I couldn't imagine on the next day Someone calling with a terrible fate Man, it took us all by surprise Ooh is it in hell that I?m living or a nightmare? I just wanna wake up [Ponte] F C Dadd9 Am Sleep, my friend Sleep, there?s no more pain Am Sleep in peace, that you deserve
