

## Vintage Culture - Deep Inside Of Me

tom: Abm Abm Tell me all your feelings Whisper in my ear Let go of your demons Release all your fears Meet me in the night time Look into my eyes Heal me with your goodness Reach into my heart at night Break out of the darkness Float into the light I?ll be your guardian angel Don't worry things will be alright I wanna go deep, deep inside I wanna go deep, deep inside your mind I want you so deep, deep inside I want you so deep, deep inside of mine [Refrão]

## **Acordes**

```
E Dbm
         I want you so deep, deep inside
Tell me what you're needing
I'll show you what I hear
Nothing in between us
I won't disappear
Meet me in the night time
Look into my eyes
Heal me with your goodness
                             Abm Gb
Reach into my heart at night
Break out of the darkness
Float into the light
I?ll be your guardian angel
                                   Abm Gb
Don't worry things will be alright
I wanna go deep, deep inside
I wanna go deep, deep inside your mind
I want you so deep, deep inside
I want you so deep, deep inside of mine
[Refrão]
         I want you so deep, deep inside
```
