Viper - The Spreading Soul Forever

```
                tom:
                Em
        Em
   We are safe in this old storm
C
Close to the land but you know
Am                    C         D Em
Nothing is so calm to everyone

[Verse 2]
Em
   I look at myself for something new
C
Tell me a little tale about you
Am                      C                 D Em
Life is just a rhyme of hopes and crimes

[Chorus]
Better years are coming
G
  Not in my hand just in my heart
C              D           Em
Lay the will I have inside
          C            Am
For all I want, what I feel
G
  Sister moon, brother sun
C           D          Em
Yesterday I was alone
      C             Am
What I want, what I feel
         C    D
Is to be free

[Verse 3]
Em
   Warmed by the sun when it shines
C
Floating in the air in a red sky
Am            C                 D Em
I can realize life is moving on

[Verse 4]
Em
   I took from my blood all my hate
C
Guided by the light of fate
Am                      C        D Em
Wind blew out my soul to everyone

[Chorus]
Better years are coming
G
  Not in my hand just in my heart
C              D           Em
Lay the will I have inside
          C            Am
For all I want, what I feel
G
  Sister moon, brother sun
C           D          Em
Yesterday I was alone
      C             Am
What I want, what I feel
         C
Is to be free

[Bridge]
        D
I don't care that when you go
C                       Am
The old storm'll turn my boat
        G
I don't know how
       C
To be free
     D
If a shadow in my life
          C               Am
Takes me out from my red sky
        G
I don't know how
       C
To be free

[Chorus]
Better years are coming
G
  Not in my hand just in my heart
C              D           Em
Lay the will I have inside
          C            Am
For all I want, what I feel
G
  Sister moon, brother sun
C           D          Em
Yesterday I was alone
      C             Am
What I want, what I feel
         C
Is to be free
```
