

VOILÀ - LIFEBLOOD

tom:
D
You are my lifeblood
I think that this may be true love
Everyone else has been bad luck
So I'll take my chances with you
You and your surefire heart
I'd know you in the dark
I've only felt this spark with you
We dance with no music on
Your heart beat's my favorite song
I'll make us a world that's built for two

D
Silver and gold
The hand that I hold
I wanna grow old
Counting the circles around your eyes
G
I can't hide

D
You are my lifeblood
I think that this may be true love
Everyone else has been bad luck
So I'll take my chances with you
You're like this diamond
A way I'm forever reminded
That home is wherever we find it
So I'll take my chances with you

D
I think to die with you
Is what I was born to do
Our story will read so beautifully
D
If ever the well runs dry
A
The Sun falls out of the sky
Bm G
I promise our love is all we need, oh
