

VOILÀ - LIFEBLOOD

tom:
 You are my lifeblood
 I think that this may be true love
 Everyone else has been bad luck
 So I'll take my chances with you
 You and your surefire heart
 I'd know you in the dark
 I've only felt this spark with you
 We dance with no music on
 Your heart beat's my favorite song
 I'll make us a world that's built for two

Silver and gold
 The hand that I hold
 I wanna grow old
 Counting the circles around your eyes
 I can't hide

You are my lifeblood
 I think that this may be true love
 Everyone else has been bad luck
 So I'll take my chances with you
 You're like this diamond
 A way I'm forever reminded
 That home is wherever we find it
 So I'll take my chances with you

I think to die with you
 Is what I was born to do
 Our story will read so beautifully
 If ever the well runs dry
 The Sun falls out of the sky
 I promise our love is all we need, oh

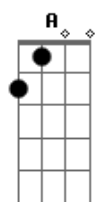

You are my lifeblood
 I think that this may be true love
 Everyone else has been bad luck
 So I'll take my chances with you
 You're like this diamond
 A way I'm forever reminded
 That home is wherever we find it
 So I'll take my chances with you
 Silver and gold
 The hand that I hold
 I wanna grow old
 Counting the laughter around your eyes (around your eyes)
 I can't hide

You are my lifeblood
 I think that this may be true love
 Everyone else has been bad luck
 So I'll take my chances with you

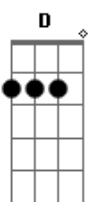

You are my lifeblood
 I think that this may be true love
 Everyone else has been bad luck
 So I'll take my chances with you
 You're like this diamond
 A way I'm forever reminded
 That home is wherever we find it
 So I'll take my chances with you

Silver and gold
 The hand that I hold
 I wanna grow old
 Counting the circles around your eyes
 I can't hide
