

Volbeat - Goodbye Forever

tom:

[Primeira Parte]

Did you say the thing you wanted? Have you ever felt in love?
 A moment where no problems would ever get you down
 Free as an eagle but only for a day (yeah, listen)
 The final is a warning, wake up before you go
 There'll be no second chances, that day you're on your own
 Let out the feelings, tomorrow may not come

[Chours]

All alone in the dark
 Move the curtains for once
 See the light life has brought, or goodbye forever
 Take the arms that embrace
 No more being afraid
 Feel the sun on your face, or goodbye forever

[Segunda Parte]

Were you listening to the evening? Have you ever felt the dawn?
 When everything around you told stories from the world
 Dear mother nature speaks louder than you know (oh, listen)
 The final is a warning, wake up before you go
 There'll be no second chances, that day you're on your own
 Let out the feelings, tomorrow may not come

[Refrão]

All alone in the dark
 Move the curtains for once
 See the light life has brought, or goodbye forever
 Take the arms that embrace
 No more being afraid
 Feel the sun on your face, or goodbye forever

(D)

Take the arms that embrace
 No more being afraid
 Feel the sun on your face, or goodbye forever
 [Ponte]
 We are the birth
 We are the end
 We are the souls
 We have a name
 We are the rising and fallen ones
 We are the spirit, forever more
 We are the birth
 We are the end
 We are the souls
 We have a name
 We are the rising and fallen ones
 We are the spirit, forever more

[Refrão]

All alone in the dark
 Move the curtains for once
 See the light life has brought, or goodbye forever
 Take the arms that embrace
 No more being afraid
 Feel the sun on your face, or goodbye forever
