## Volbeat - Thanks

```
We thank you people for being around
Supporting Volbeat with love and hell fire
Gu'fanden do we care
You're all our brothers, sisters and our babies
( C F G C )
Going out on the street again with open arms and fists
Sweating out all the whiskey tommermaend
And the pain that comes with it
But we know who we are and more
Protectors of this band - oh oh oh
And we know we're not alone anymore
We got supporters in this rock'n'roll band
This song's for all the ones who's singing out loud
Yeah! We make a lot of noise
Refuse to sit down and be tamed
We still think that we owe you some
So we're making a lot of noise
We sing it out loud we sing it out proud
( C F G F C )
Sacrificing all the things that we had
```

## **Acordes**

But we know who we are and more
Protectors of this band - oh oh oh
And we know we're not alone anymore
We got supporters in this rock'n'roll band
This song's for all the ones who's singing out loud
Yeah! We make a lot of noise
