

Walking On Cars - Coldest Water

Tom: G

Intro: Gm Bb Dm F
Gm Bb Dm C

I was looking for a friend

And it all came to an end

But I survived, yeah I survived

Oh you came across the sea

Swam the ocean just for me

Now I'm alive, yeah I'm alive

What we do it's a game that you can't play

And we're losing it every time

If it lasts then we could be in Heaven

But it stops and it leaves us to dry

But here I go again, back the way I came

Into the coldest, into the coldest water

Here I go again, no one else to blame

Into the coldest, into the coldest water

Oh oh oh oh, into the coldest water

Ooh ooh ohh, ooh ooh ooh

Oh oh oh oh, into the coldest water

Yeah I was talking to a friend

About what happens in the end

And realized, we realized

That one day we would be the ground

And all the colours we are now

Would fade in time, they faded in time

What we do it's a game that you can't play

And we're losing it every time

If it lasts then we could be in Heaven

But it stops and it leaves us to dry

But here I go again, back the way I came

Into the coldest, into the coldest water

Here I go again, no one else to blame

Into the coldest, into the coldest water

Oh oh oh oh, into the coldest water

Ooh ooh ohh, ooh ooh ooh

Oh oh oh oh, into the coldest water

Yeah I used to be like that

No it's not a long way back

Oh oh oh oh

Ooh ooh ooh ooh

Yeah I used to be like that

No, it's not a long way back

You should have seen how they found me

But here I go again, back the way I came

Into the coldest, into the coldest water

Here I go again, no one else to blame

Into the coldest, into the coldest water

Yeah I used to be like that

No it's not a long way back, into the coldest water

Yeah I used to be like that

No it's not a long way back, into the coldest water
