

## **Wallows - Calling After Me**

```
Think you need someone like me to get through it
                           tom:
                                                                    Bbm Db Ab
                                 [Intro] Bbm Eb Ab Db
                                                              And I know you can see we?ll let people talk
                                                                      Cm Eb Ab
               Eb
                                                              And you know we can be just what they want
Who?s somebody you know you shouldn?t call?
                                                             [Refrão]
Who were you kissing in the back of your car?
                                                             Bbm
                                                                       Eb
       Bbm
Who?s the one, the one who got away?
                                                              ?Cause I?ve been out until the morning
Who are you thinking of when you end the day?
                                                              And I don?t think I?ll last another night
    Bbm Eb Ab
?Cause I know you can see we're more than a secret
                                                              I knew the feeling would be forming
     Bbm Cm Ab
                                                              After I took a look into your eyes
You know I can be just what you want
                                                                                Eb
[Refrão]
                                                              But are you ready for it darling?
                                                                           Db
                                                              I?ll take all your responsibilities
?Cause I?ve been out until the morning
                                                                   Bb
                                                              And you?ve got everybody calling
                  Db
And I don?t think I?ll last another night
                                                              But I know that you?re calling after me
I knew the feeling would be forming
                   Db
                                                             ( Bbm Eb Ab Db )
After I took a look into your eyes
                                                             ( Bbm Eb Ab Db )
                Eb
But are you ready for it darling?
                                                             Bbm
                                                                        Eb
             Db
                                                              ?Cause I?ve been out until the morning
I?ll take all your responsibilities
                                                              And I don?t think I?ll last another night
[Pós-Refrão]
                                                             I knew the feeling would be forming
                                                              After I took a look into your eyes
And you?ve got everybody calling
But I know that you?re calling after me
                                                                                Fb
                                                              But are you ready for it darling?
Don?t play dumb I know you fantasize
                                                              I?ll take all your responsibilities
                                                                   Bb
      Ab
                  Db
                                                              And you?ve got everybody calling
You can have me in the back every night
       Bb
I don?t mind the things that you?ve been doing
                                                              But I know that you?re calling after me
