

Walter Neto - Julia

Tom: E

When I say that we have a future
 When I say that I'll be the best
 I'm not lying
 I'm not lying

I'm just a guy that would do anything
 I would do anything to fix this mess
 Having you with me is priceless
 And I'll pay you with all of my love

Because I want you
 I still want you
 There's no other love to make me laugh
 Like you did to me
 Baby can't you see
 What you did

 Come back for me
 We came through a lot of things
 And I think most of these were good
 Memories that I don't want to forget
 Memories that I would like to revive

I was wrong with you a lot, now I see
 Please forgive my mistakes with you and me
 You are my love
 You are my love
 You are my love to me
 When I look into your eyes I see that I love you
