

# We the Lion - Fading

Tom: G

All my world is upside down  
 I see you lay on the ground  
 I feel your eyes closing forever  
 Leaving me behind  
 How can the story end  
 Where did you go my friend  
 Nothing will be the same  
 Without you  
 Without  
 Stay don't leave me on my own  
 Oh oh  
 I'm afraid you leave me but you go  
 Oh oh  
 I feel lost confused and unclear  
 I see you, what has happened here?  
 The fault is mine, you're gone forever

Leaving me alone, leaving me alone  
 How can the story end  
 Where did you go my friend  
 Nothing will be the same  
 Without you  
 Without  
 Stay don't leave me on my own  
 Oh oh  
 I'm afraid you leave me but you go  
 Oh oh  
 Stay don't leave me on my own  
 Oh oh  
 I'm afraid you leave me but you go  
 Oh oh  
 You'll always be a part of my life  
 I thought we were gonna grow old  
 But fate has a bitter sweet taste  
 I fear,? I've lost it all
