Weezer - Run Away

```
                        tom:
             D
```

```
   D                    G        A     D
I thought you would always be my friend
    G       A          D
Now everything must end
    G     A         D
And so the world moves on
    G       A         D
And everything must go
```

```
D                   D                G
When I'm looking at the night sky, I can see my soul
D                     D                       G
I can see the little lights flashing at eachother up above
Em            A                Em            Gm
(A )
Is it us making love in the Milky Way, long before we threw it
all away?
```

```
     G    A
Hey, you
                   G       A
We're running out of time
                   G       A
And you know it's true
                Bm
I just want to run away from here with you
D        G  A
Tonight
D        G  A
Tonight
```

```
D                   D                G
Sometimes I wish I was a house at the end of the block
D                   D                G
```

```
You could smash all my windows with the throw of a rock
Em                   A                         Em
And make the hurt go away, come again some other day
               Gm              A
There's so much I want to say about
```

```
G   A
You
                 G       A
We're running out of time
                   G       A
And you know its true
                Bm
I just want to run away from here with you
```
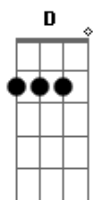

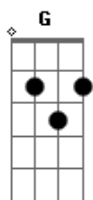

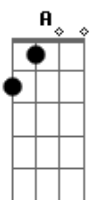

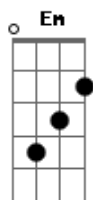

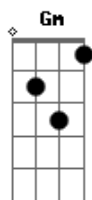

```
   D                    G     A    D
I thought you would always be my friend
    G       A          D
Now everything must end
    G     A         D
And so the world moves on
    G     A          D
Cuz everything must change
   G        A    D
And now you're all alone
         G      A    Bm
You're sitting by the telephone
       A        G
You wonder why
       A        D  G  A
Everyone will cry
D        G  A
Tonight
D        G  A
Tonight
D        G  A
Tonight
D        G  A
Tonight
```
