

## **Weezer - The Grunge Song**

Tom: Bb

Fica nisso, eh a parte calma da música...

Depois quando falar: "And this is the part" ou "So we go back So we go back to play loud to It's like the first time

play loud" fica mais pesado e entra com distorção...

This is the part of the song That's really quiet We play very soft It sounds like a ballad

And this is the part Where we play real hard It's much louder Than at the beginning It's like the first time
But this try'll be louder
This is usually the place
Where it would be quiet again
But we don't wanted to be
Too predictable
Predictable

To the quiet part... Again
If the whole song was this way

Predictable

And we go back

It would be boring
