

Paul Weller - Cobweb / Connections

tom:

[Primeira Parte]

Can you see the good things in your life
See what's really happening and why
Hear that distant bell so clear and bright
Heralding a new day. Somewhere, all connected
In your mind
Can you jump for joy and clap in time
Not a trace of goodness you could find
Is there not a moment you could cite
That takes you through the back roads
Down by the river. Somewhere in the cobwebs
Of your mind
[Refrão]
So don't go
And get by
'Cause that's not life
It's just getting through the day

So I say
Change today
Save yourself
And save all those around you too
[Solo]
[Ponte]
And all the pictures you've been shown
Were made from paper, not from stone
But only you can now decide
How old and new worlds will collide
[Refrão]
So don't go
And get by
'Cause that's not life
It's just getting through the day
So I say
If I may
Save yourself
And save all those around you too
