

Paul Weller - Long Long Road

Tom: C

In the times too far to you
In the places I once knew
And never footstep that I've taken
Was just one step I took to you
In strangers passing by
To the castles in my eyes
And in the busy streets and markets
Where I look baby, I look for you

Ohh
And I know it's a long long road
That we walk together but as one
There's no longer two
Oh, me and you
When the road gets rough
We gotta pull together Ooh-oohh
Ooo-oohh
Ooh-oohh-oohh

When the time no longer sides
There'll be choices I won't decide
And when that times comes
I'll go through it
With what I've learnt baby

From loving you
Ohh, ooh
There's so many roads that you can go down
So many lonely lives can be found
Many lead nowhere
And I had my share
An' that lonely life just ain't that good
Yes I know (Yes I know, Yes I know)
It's a long long road
That we walk together, but as one
Yes I know (Yes I know, Yes I know)
It's a long long road (It's a long long road)
That we walk together (That we walk together)
But as one (But as one)
There's no longer two (Yes I know, Yes I know)
Oh, me and you (It's a long long road)
When the road gets rough (That we walk together)
We gotta pull together
Yes I know (Yes I know, Yes I know)
It's a long long road (It's a long long road)
That we walk together (That we walk together)
But as one (But as one)
Yes I know
