

Wes Andrade - Let Me Save You

Tom: G

If I can save you
 To not give up this life
 Would you get out of this bridge
 And would give one chance to fight?
 I know that you have everything
 But it seems that you have nothing
 But get up my friend, you are loved
 By your friends and family
 So I will sing to you and show you
 The power of words
 Don't give up, you are loved
 Get up your head and see the sky
 It's a good day to be alive
 So don't be scared and face your fears
 And be sure, that even if it doesn't look like

You'll get through this dark times
 When you feel that you are lost
 Hold on to who you love the most
 And I know my friend, that no one knows
 What you're fighting from the inside
 And I am your messenger, to say that everything will be all right
 And we're on the same side
 (C D)
 Don't give up, you are loved
 Get up your head and see the sky
 It's a good day to be alive
 So don't be scared and face your fears
 And be sure, that even if it doesn't look like
 You'll get through this dark times
 So don't be scared and face your fears
 And be sure, that even if it doesn't look like
 You'll get through this dark times
