

Westlife - Queen Of My Heart

Tom: C

So here we stand
In our secret place
Where the sound of the crowd
Is so far away
And you take my hand
And it feels like home
We both understand
It's where we belong

So how do I say?
Do I say goodbye?
We both have our dreams
We both wanna fly
So let's take tonight
To carry us through
The lonely times

I'll always look back
As I walk away
This memory will last
for eternity
And all of our tears
Will be lost in the rain
When I find my way back
to your arms again
But until that day
You know you are
The queen of my heart
Queen of my heart

So let's take tonight
Never let go
While dancing we'll kiss
Like there's no
As the stars sparkle down
Like a diamond ring
I'll treasure this moment
Till we meet again

But no matter how far (matter how far)
Away you may be
I just close my eyes (I just close my eyes)
And you're in my dreams
And there you will be
Until we meet
I'll always look back
As I walk away
This memory will last
for eternity
And all of our tears
Will be lost in the rain
When I find my way back
to your arms again
But until that day
You know you are
The queen of my heart
Queen of my heart
I'll always look back
As I walk away
This memory will last
for eternity
And all of our tears
Will be lost in the rain
When I find my way back
to your arms again
But until that day
You know you are
The queen of my heart
Oh yeah...
You're the queen of my heart (of my heart)
No matter how many years it takes
(Queen of my heart)
I'll give it all to you
Oh yeah
(Queen of my heart)
Oh yes you are
The queen of my heart
