

Wet Leg - I Don't Wanna Go Out

tom:

[Primeira Parte]

I don't wanna go out
It's been getting me down
Get me down, get me down
Get me down, get me down
Get me down
I have to find a way out
Of the plans that I made in the past
All too fast, force quit
That's it, that's it
Control, alt, delete

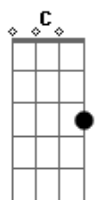

[Refrão]

It used to be so fun
Now everything just feels dumb
I wish I could care
And now I'm almost 28
Still getting off my stupid face
A fucking nightmare
I know I should care
Right now I don't care

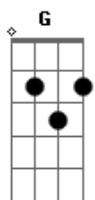

[Segunda Parte]

It all used to be fun
Now you're swinging a gun
'Round your head, seeing red
Can you please repeat what you just said?
Or leave a message at the beep
Because I do not have time
To try to understand

Why you do what you like
But it never really turns out right
At least we are all going to die

[Refrão]

It used to be so fun
Now everything just feels dumb
I wish I could care
And now I'm almost 28
Still getting off my stupid face
A fucking nightmare
I know I should care
Right now I don't care

[Terceira Parte]

Oh yeah!
I heard that you started a band
Oh yeah!
I heard that you moved to LA
Oh yeah!
Are you gonna stay young forever?
You said "Yeah!"
And I just walk away

[Refrão]

It used to be so fun
Now everything just feels dumb
I wish I could care
And now I'm almost 28
Still getting off my stupid face
A fucking nightmare
I know I should care
Right now I don't care
