

W.E.T - Love Heals

tom:
E
There's a voice that's crying from a wasteland
Says I don't know where to go from here
I've been caught so long here in the wasteland
The days and months turned to years
Noise inside my head
It scares me half to death
But love heals
Love feels alive
Cause love's here
When you're by my side
And love frees
Love's real this time
Love sees
The man here inside

(Badd9 Aadd9) (2x)
Love heals
I have tried so hard to be a sane man
But my demons never disappeared
I have hurt you, cursed you, but you still stand
Helping me to see my fears
Noise inside my head
It scares me half to death
But love heals
Love feels alive
Cause love's here
When you're by my side
And love frees
Love's real this time
Love sees
The man here inside
