Intro: E B E B

I can be happy daydreaming about you
I feel I know true love for the first time in my life
Sitting here thinking it don't get much better
Such love and affection I never thought I know

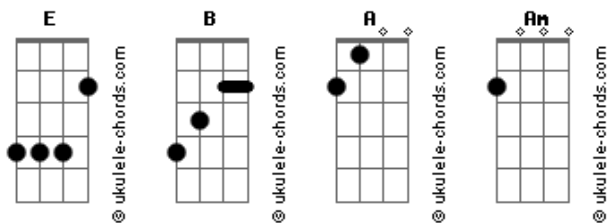

And I've got all the time in the world for you babe
Every minute of the day
All the time in the world for you babe
And it don't get much better it don't get much better
Than you and me
I just can't get enough of your love

So don't tell me it's raining I know my Sun is shining
I ain't got no black cloud hanging over my head
Don't tell me I'm dreaming lord I'm holding in clover
Ain't nothing but blue skies when I'm with you

And I've got all the time in the world for you babe
Every minute of the day
All the time in the world for you babe
And it don't get much better it don't get much better
Than you and me
I just can't get enough of your love
All the time in the world
All the time in the world
