

Whitesnake - Crying in the Rain

Tom: E

Repeat 3x

A black cat moans, when he's burning with the fever
 A stray dog howls, when he's lonely in the night
 A woman goes crazy, with the thought of retribution

Feel I'm wasting my time lighting candles in the wind
 Always taking my chances on the promise of the future
 But a heart full of sorrow beats a lonely tapestry

But a man starts weeping, when he's sick and tired of life.

Repeat 2x

This represents the main riff in the tune. It's played with mondo-fuzz. All notes are lightly damped except the D and Db on the 5th string, which are pinched to the point of squealing. At this point its repeated six times: twice alone and four times under the lyrics.

The sun is shining

(play 'main riff' one more time)

But its raining in my heart

No one understands the heartache, no one feels the pain

I keep on dreaming the dreams of tomorrow

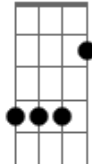

No one ever sees the tears when you're crying in the rain

Repeat 2x

when you're crying in the rain
 crying in the rain
