

## Whitesnake - Love Will Set You Free

```
Tom: C
                                                                Every time I think about you baby
                                                                Every time I see your smiling face
                                    Afinação: Eb Ab Db Gb Bb
                                                                Every time I feel your loving arms around me
Eb Intro: Am
                                                                Guilty pleasures take up all my time and space
Something in your smile was so inviting,
                                                                Now I realize
Something in your eyes told me to stay,
Something in your touch electrified me
                                                                As I look in your eyes
Completing me in every single way
                                                                This must be love
                                                                Baby try to understand, my heart is in your hand
Now I realize
    Dm
As I look in your eyes
                                                                Love will set you free
This must be love
                                                                Love will set you free
                           Dm
Baby try to understand, my heart is in your hand
                                                                You can trust in me
                                                                My love will set you free, set you free?
Love will set you free
Love will set you free
                                                                Love will set you free
You can trust in me
                                                                Love will set you free
My love will set you free, set you free?
                                                                You can trust in me
                                                                My love will set you free, set you free?
```
