**B D E** Take me with you I will give you anything a woman needs **D**

I know love and what it means,  
It's a skinny little girl in tight ass jeans  
I love to hear'em moan and cry,  
'Cos God made men to satisfy  
And with the fire returning,  
I feel the fever burning  
Oh babe, bring it on home to me

Take me with you I will give you anything a woman needs,  
Take me with you I will give you anything a woman needs  
Oh, take me with you.

Every time I see my baby home,  
I wanna kiss a little better so I get stoned  
Gonna spread her pretty legs so I can see,  
Sweet lip honey be the death of me  
And I will discover you'll be my midnight lover,  
Oh babe, bring it on home to me

Take me with you I will give you anything a woman needs,  
Take me with you I will give you anything a woman needs  
Take me with you.
