

Wilbur Soot - L'manberg Anthem

tom:

Intro: C G C G

I heard there was a special place
Where men could go and emancipate
The brutality and the tyranny
Of their rulers
Well this place is real you needn't fret
With Wilbur, Tommy, Tubbo, fuck Eret
It's a very big and not blow up L'Manburg

My L'Manburg
My L'Manburg
My L'Manburg
My L'Manburg

For freedom and for liberty
Our nation sought to build on these
A victory for all under our freedom
Well the darkness came and then it went

We built a home and watched it end
And from the rubble grew my great L'Manburg

It's L'Manburg
It's L'Manburg
It's L'Manburg
It's L'Manburg

With bloodied hands and weakened knees
Our people rose like the phoenix
Our empty fields and canals
'Round L'Mantree
With sweat and tears we armed our ranks
We laid foundations in our land
And from every lip from here up to infinity

We sing L'Manburg
We sing L'Manburg
We sing L'Manburg
We sing L'Manburg
