Willie Nelson - Angel Flying Too Close To The Ground
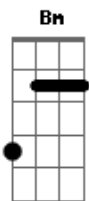

Tom: G
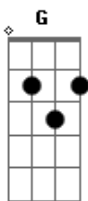

```
     G                  Bm
If you had not have fallen
      C2               G
then I would not have found you
C                 D        G
Angel flying too close to the ground
G            Bm        C2              G
I patched up your broken wing and hung around for a while
A7                                    D
trying to keep your spirits up and your fever down
    G          Bm   C2           Dbdim
So leave me if you need to I will still remember
G                  D         G
Angel flying too close to the ground.
```

```
     G      Bm                 C2
I knew someday that you would fly away
      A7                          D
for loveUs the greatest healer to be found
     G            Bm   C2           Dbdim
So leave me if you need to I will still remember
G                  D         G
Angel flying too close to the ground

     G       Bm              C2
Fly on fly on past the speed of sound
      A7                         D
IUd rather see you up than see you down
     G            Bm   C2           Dbdim
So leave me if you need to I will still remember
G                  D         C      G
Angel flying too close to the ground.
