

Willie Nelson - Maria Shut Up And Kiss Me

Tom: C С Dm G7 That's my favorite part to rewind my life on. Dm G7 When my world got dark you turned my light on. I've watched it for hours again and again in my head. I did. You said I was down on you more than I needed to be. I say I'm sorry but then you think I'm lying. Maria, shut up and kiss me. Stop shaking, stand up and hold me. I bet you're gonna miss me. You need me, believe me. Maria, shut up and kiss me. You're crazy and it turns me on and on The way you're carrying on. Dm G7 Well that's my favorite shirt you always had on. And it sure looked good every time you walk on. You've taken the wind from me every chance that you could. Some things I can't explain tell me lately I've changed. You'll feel better, tell me why are you crying.
