

Willie Nelson - Pretend I Never Happened

Tom: A

Acordes do Verso: D A E A

Verso 1:

Pretend I never happened

Erase me from your mind

You will not want to remember

Any love as cold as mine

I'll be leaving in the morning

For a place that I hope I'll find

All the places must be better

Than the ones I leave behind

Well I don't suppose you'll be unhappy

You'll find ways to spend your time

And if you ever think about me

And if I ever cross your mind

Just pretend I never happened

Erase me from your mind

You will not want to remember

Any love as cold as mine

Well I don't suppose you'll be unhappy

You'll find ways to spend your time

And if you're ever thinking about me

And if I ever cross your mind

Just pretend I never happened

Erase me from your mind

You will not want to remember

Any love as cold as mine

You will not want to remember

Any love as cold as mine
