

Willie Nelson - Whiskey River

tom:

Whiskey River take my mind

Don't let her memory torture me

Whiskey River don't run dry

You're all I've got take care of me

I'm drowning in a whiskey river

Bathing my mem'ried mind

In the wetness of its soul

Feeling the amber current

Flowing from my mind

And leaving a heart you left so cold

Whiskey River take my mind

Don't let her memory torture me

Whiskey River don't run dry

You're all I've got take care of me

I'm drowning in a whiskey river

Bathing my mem'ried mind

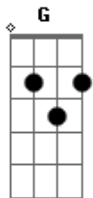

In the wetness of its soul

Feeling the amber current

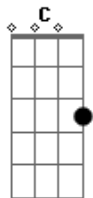

Flowing from my mind

And leaving a heart you left so cold
