Wings - Name and Address

```
                        tom:
                    A
Intro: A  E

A                           E
  Our love affair was over on the second day
A                           E
  You packed a bag and like a birdie flew away
A                                       A7
  Meanwhile I?m sitting here, I?m getting in a mess
        E  E                   B           E
If you want my love, leave your name and address

A                           E
  I used to love you baby, when I was your man
A                               E
  But maybe loving you is something no one man can do
A                                       A7
  Meanwhile I?m sitting here, I?m getting in a mess
        E  E                   B         E
If you want my love, leave your name and address

A                                         E
  Love to feel the tingle of your heavenly caresses
A                                                   E
  Love to intermingle, a lonely single without addresses
        E  E                   B         E
```
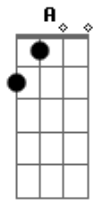

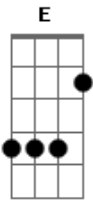

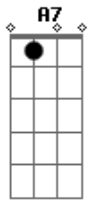

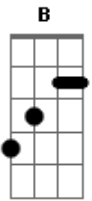

```
If you want my love, leave your name and address

A                                                 E
  But if it's all over baby, you know I?ll understand
A                                               E
  Maybe I?ll hate to think of you with another man
A                                       A7
  Meanwhile I?m sitting here, I?m getting in a mess
        E  E                   B         E
If you want my love, leave your name and address

[Solo] A  E  A  E
        E  E  A  E

A                                                 E
  But if it's all over baby, you know I?ll understand
A                                               E
  Maybe I?ll hate to think of you with another man
A                                       A7
  Meanwhile I?m sitting here, I?m getting in a mess
        E  E                   B         E
If you want my love, leave your name and address
[Solo] A  E  A  E  A
        E  E  A  E

A                               E                 A
  But if it's all  over baby, you know I?ll understand
```
