Intro: Dbm A
                                                              But what can I do?
                                                              Can't tell the reasons
[Primeira Parte]
                                                              I did it for you
I can't feel my senses
I just feel the cold
                                                              When lies turn into truth
All colours seem to fade away
I can't reach my soul
                                                              I sacrifice for you
[Segunda Parte]
Dbm A
                                                              You say that I am frozen
  I would stop running
         Α
  If I knew there was a chance
                                                              But what can I do?
                                                              Everything will slip away
  It tears me apart to sacrifice it all
  But I'm forced to let go
                                                              Shattered pieces will remain
Tell me I'm frozen
                                                              When memories fade into emptiness
But what can I do?
                                                              Only time will tell its tale
             Gbm D
Can't tell the reasons
                                                              If it all has been in vain
I did it for you
                                                              I can't feel my senses
When lies turn into truth
                                                              I just feel the cold
I sacrifice for you

You say that I am frozen
                                                                But what can I do?
