

Xdinary Heroes - Diamond

tom:
Dbm
Every doubt I felt
It buried me alive
They left me here to die
Yeah, heartbeat's getting low
Every breath, no air, became a do or die
A million miles to surface
Emerging, out of all the lies
To step into the light
Hey
Got the whole world burning
Can somebody save me?
Fire in my mind
You didn't know that I'm a diamond
I got proof in my eyes
Oh, you didn't know until this moment
I know what I am
(Dbm B)
When the pressure's all on me
Getting crushed, I wanna scream
Getting low
Feel alone?
Dbm

But it's coming like a dream
