## **Yellowcard - City Of Devils**

```
notes
Intro:
Man once sang to me
Look at you saving the world on your own
And I wonder how things gonna be
Cos the time here it passes so slow
In a city of devils we live
A city of devils we live
Find somebody to learn
Boy you gotta love someone more than yourself
I can feel the fire of the city lights burn
It's hard to find angels in hell
Flying alone I
Feel like I don't belong and I,
Can't tell righy from the wrong, why,
                 G
Have I been here so long
In a city of devils we live
A city of devils we live
```

```
Questions I can't seem to find
To the answers I already have
And you can't see the sky here tonight
So I guess I can't make my way back
Chorus
Bridge
Eb
What if I wanted you here right now
Would you fall in the fire burn me down
If I wanted you here right now
Would you fall in the fire burn me down
If I wanted you here right now...
In a city of devils we live
In a city of devils we live
A city of devils we live
In a city of?
      Ğ
I don't belong
Don't belong
                         D C
