

Yellowcard - View From Heaven

Tom: G
Intro: .: G C C Am C C G C C Am C x2

I'm just so tired
wont you sing me to sleep
and fly through my dreams
so I can hitch a ride with you tonight
and get away from this place
have a new name and face
I just aint the same without you in my life

Intro.(1/2)

late night drives all alone in my car
I can't help but start
singing lines from all our favorite songs
and melodies in the air
singin life just aint fair
sometimes I still just can't believe you're gone
and I?m sure the view from heaven
beats the hell out of mine here
and if we all believe in heaven
maybe we'll make it through one more year
down here

feel your fire
when its cold in my heart
and things sorta start

remindin' me of my last night with you
I only need one more day
just one more chance to say
I wish that I had gone up with you too
and I'm sure the view from heaven
beats the hell out of mine here
and if we all believe in heaven
maybe we'll make it through one more year
down here

you wont be comin' back
and i didn't get to say goodbye
I really wish I got to say goodbye
and I?m sure the view from heaven
beats the hell out of mine here
and if we all believe in heaven
maybe we'll make it through one more year
I hope that all is well in heaven
cause it's all shot to hell down here
I hope that I find you in heaven
cause I'm so...
lost without you down here

you wont be coming back
and i didn't get to say goodbye
I really wish I got to say gooooodbye
