

# Ylvis - Old Friends

Tom: C

Intro: C

Verse 1:

I saw you at the railway station  
there had been a cancelation  
you were smoking cigarettes alone  
I walked up and said hello, I lost my wife two days ago  
You shook my hand and said Francis was your name

Chorus 1:

And you had a hat  
And I had a hat  
Mmm, we both had hats  
And my wife was dead  
And your wife was dead  
Shit happens, Francis said

Verse 2:

Francis said it's five o'clock  
How about we find a rock and throw at some cars from the bridge  
I laughed and said that sounds like fun  
We walked into the setting sun  
And Francis said "I'm aiming at the kids"

Chorus 2:

And he threw a rock  
So I threw a rock  
We both put some gravel in a sock  
And he threw the sock, I said we should stop  
He smiled at me, then threw a rock in a sock

Verse 3:

We snuck down to the local farm  
And there we opened up the barn  
To set the horses free and watch them run

The moon was extra bright that night

The horses in the pale moonlight  
"Watch this" Francis said, and pulled his gun

Chorus 3:

And he shot a horse  
So I shot a horse  
Francis choked a chicken with his hands  
But watching them die, he started to cry  
"I'm bored" Francis said, let's steal a car  
Bridge:  
Oh, Margaret, Oh Margaret  
Don't you worry bout' me now  
I'm doing just fine on my own  
There are other things to life than your soft skin against mine  
And Francis is helping me move on  
I'm moving on

Verse 4:

Life's a bitch, a wise man said  
No matter what, you end up dead  
And all that you can wish for is a friend  
So pour another glass of wine  
With Francis shoulder touching mine  
I'll stay right here until the bitter end

Chorus 4:

And you have a hat  
And I have a hat  
Mmm, we both have hats  
And your wife is dead  
And my wife is dead  
Here's to life, Francis said  
Here's to life, Francis said  
Here's to life, Francis said  
Here's to life, Francis said
