

Yoñlu - Honeymoon In Polynesia

Tom: C

Honeymoon in Polynesia
It's was fun for the first time
We never ever had the time
To do it again

Honneymoon in Polynesia
What about that little trick
And that nickname was gonna stick
I never got to show it and today
It seems like you don't care anyway
Cause we speak English everyday
And though my life's been quite okay
I don't see you much these days
I think it would be nice for a change

Just rewind, go back in time, and I haven't said goodbye
Be back in 99 and I didn't make you cry
Our lives are only what we can transform and signify
Polynesia, that was where I met the night

Honneymoon in Polynesia
Its was fun for the first time
We never ever had the time
To do it again
Honeymoon in Polynesia
What about that little trick
And the nickname was goin' to stick
I never got to show it and today
its seems like you don't care anyway
