

# Young Lights - Pills

tom:

Intro: G Am C Em

Do you dance before you walk?  
Do you sing before you talk?  
Do you think before you jump?  
Love before you fuck?  
Take another pill  
Just to keep yourself still  
Solve all your problems  
At the bottom of this bottle of wine  
( G Am C Em )

My brothers, my sisters  
There's so much that I'm missing  
I'm losing my head with all this shit

And I take another pill  
Just to keep myself still  
And I drink all my troubles at the bottom  
Of this bottle of wine  
I'm just trying to  
Get, get, get through the day  
Get, get, get through the day  
Get, get, get through the day  
Without anyone  
Telling me  
I'll be okay  
We'll all be alright  
( G Am C Em )

G  
Hold on to something, well  
Am  
Grab all you can  
C  
Cause you stole my religion  
Em  
From the palm of my hand  
G  
And If I take another pill
