

# Young The Giant - Camera

Tom: C

It's a mystery night  
Like a sawed-off shot gun  
In the morning light it comes to anyone  
All the strings that follow you  
And the things they're tied to  
My love's behind you colored by the snow  
The shine is gone

I used to know what made you wet  
Now I'm searching for it  
Cause it's a mystery all the same  
Not to get you back

[Refrão]

On holiday  
With a broken camera  
And all I say  
Is "I could be happier"  
I could be happier

It's a mystery night  
And I thought we had fun  
But in the morning light  
Your cars already gone  
Do the things I wanna do  
Not the ones I'm supposed to

Why can't I get close to

The man I saw in me

When I was young

[Refrão]

On holiday  
With a broken camera  
And all I say  
Is "I could be happier"  
And all I say  
Is "I could be happier"

All up the way  
I'm free of all the shadows that follow me  
Of all the branches up to break  
With all my faith

Destiny and fate  
Cause I never wanna go there tonight

The cameras, cameras  
I never wanna open up my eyes

The cameras, the cameras  
No cameras  
No cameras

( G Em G F )  
( Am Em G Dm )

E Am Em  
Cause I never wanna go there tonight  
I never wanna open up my eyes

( Am )
