

Young The Giant - My Way

```
tom:
Intro: Bm A Em D
                                  G A
[Primeira Parte]
This could be the ending of us
It could be the falling sun
Could have been a classic
Fatally attractive, suicidal, kind of love
I was just a kid from nowhere
Never knew where I belong
You were in the family, house up in the country
Blue-blooded American
[Pré-Refrão]
I'm leaving before the sunrise % \left( 1\right) =\left( 1\right) \left( 1\right) \left
No need to say our goodbyes
[Refrão]
I will be on my way
Baby, I hope you understand
                                                                                                                         Bm
Always seem to want what I can't have
                                                                                                                 Em
Then I hit the road when it gets bad
Baby, I will be on my way
[Segunda Parte]
We were just star-crossed lovers
 Acordes
